ABOUT ME

Having worked at Media-Max, I have gained versatile experience in sales, customer advising, and IT repair. I have learned to assist customers in selecting their equipment (PCs, smartphones, telecom subscriptions), diagnose and repair various devices, and assemble custom-built PCs tailored to their needs. This experience has allowed me to develop essential technical and interpersonal skills in the field of IT and telecommunications.

ACCOMPLISHMENTS

- Designed a phishing simulation exercise that educated students on email security threats and best practices, improving security awareness.
- Implemented a complete DES (Data Encryption Standard) cipher in Python, demonstrating understanding of symmetric cryptography and block cipher design principles.

SKILLS

- EBIOS Risk Analysis
- Monitoring
- Threat Analysis
- Python
- SQL
- Networking
- Critical Thinking
- Teamwork / Collaboration
- Attention to Detail
- Communication
